
Fiber Glass Helmets - HDP Helmets ISI / 2925 / DGMS approved.

Also available in various colours.

Fiber Glass Fireman Helmets - ISI/2745 with inner fittings and neck protector.

P.V.C. Dust Guard with replaceable filter.

Single / Double Chemical Cartridge Respirator for Ammonia, Chlorine & Organic Vapours.

It is used to protect against hazardous dust particles. Metallic components are eliminated for added safety.

Disposable Cup Type Mask / Paper Pleated Mask.

It is used in Chemical, Electronics, Fertilizers, Rubber, Cement, Glass, Aluminium Mills, Steel Mills, Mining, Construction, Ship-Building, Textile, Carpentry, etc.

Fiber Glass Welding Head Shield.

Used for welders and general purposes.

Fiber Glass Welding Hand Shield with both side finished.

Used for welders and general purposes.

Face Shield - made from Clear / Blue Acrylic Visor in various sizes.

Size 9 x 9 inch , 9 x 12 inch or as per requirements.

EAR MUFF - to reduce noise level to the lowest - 'HT' make and Imported.

EAR PLUGS - CORDED & UN CORDED - to reduce hearing loss by high noise.

Make: 3M / BILSOM / E.A.R / EARSEAL.

The outer surface of the plug is smooth and soil resistant. It does not chafe or irritate workers ear & non toxic for maximum worker safety.

Fresh Air Line Respirator (Plus Pressure Suit):

Supplied Air Equipment - mostly accepted by workers and supervisors all over the country. Principal reason for its sustained use is that the equipment won't fatigue even after continuous eight hours exposure to hazard. It has all the features of a good safety equipment, must have virgin material acid resisting body. Dissipated air supply, convenient mounting replaceable window and a moisture trap.

Cannister Mask - suitable for various gases like Ammonia, Chlorine, etc.

PVC HOOD - made from best P.V.C. cloth welded with clear acrylic visor to cover complete face against dust & fumes.

It is also used for general purpose & in chemical plants. It is very light to wear.

'Panorama' - Chemical Splash (P.C.) Poly Carbonate Safety Goggles.

Used in Chemical Industries and general purpose.

Spectacle type flip up Safety Goggles.

It is fitted with imported ophthalmic grade 'O' Power - Toughened Lenses & fitted with Blue or Green Shade No. 4, 5 & 6 ADIN - original German glass available. Packed in separate polythene bag. Also available 11 ADIN shade used for Arc-welding.

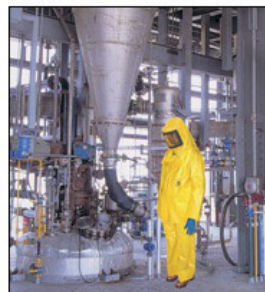

Spectacle type Safety Glasses - 'O' power - Toughened Glass

- Also available Shade No. 4, 5 & 6 ADIN.

PVC Welded Unsupported suit in 3 Pcs. - Chemical Resistance.

WATERPROOF CRYO-INDUSTRIAL GLOVES

Waterproof Cryogenic gloves are essential accessories for those working in hazardous environments with ultra- low temperatures.

Made from state-of-the-art materials, our waterproof cryogenic gloves are designed to keep you dry and to wick moisture away from your hands, so you can work in comfort for extended periods of time. A thin, seamless 100% waterproof liner provides protection from Spills and Splashes.

Our multi-layered construction allow for a maximum level of thermal protection, flexibility, and dexterity-essential features when function is important and safety is critical.

FEATURES :-

- Maximum Thermal Protection.
- Waterproof.
- Light Weight and Comfortable.
- Excellent Dexterity.
- Breathable and Stay-dry lining.

APPLICATIONS/ENVIRONMENTS :-

Tempshield cryogenic apparel is used for a variety of applications and ultra-cold environments including :-

- Bio-Medical Labs
- Clinical Labs
- Blood banks
- Fertility Clinics
- Pharmaceutical
- Genetics and Biotechnology
- Cryo-Preservation Facilities
- Liquid Spill Response
- Industrial
- Aerospace
- Petrochemical
- Frozen Food Processing
- Cryogenic Liquid & Gas Producers
- Environments where Cryogenic Liquids are handled.

APPROVALS :-

CE-EN511-EN-388-EN-420

Neoprene Hand Gloves with Flock Lining

Uses - In Chemical Industries, Agriculture & Petroleum Industries.

Latex - Rubber Hand Gloves - Acid & Alkali Proof.
Surgical Hand Gloves - for Doctors & Surgeons.
Pharmaceutical Grade Rubber Gloves.
Post Mortem Rubber Gloves

Nitrile Gloves with Flock Lining - Uses in Chemical, Automobile, Pharmaceutical, Food Service & Processing.

PVC Supported / Unsupported Hand Gloves without lining.

Used in acid & alkali, Oil, Fats, Printing Inks & Dyes.

These gloves are recommended where dexterity or sense of touch is needed during work. These gloves being light in weight provide for better grip.

Asbestos Hand Gloves to protect against Heat.

Also available 'KEVLAR' Gloves with woolen lining.

Sizes 14, 16 & 18 or as per requirement.

'Crystal' rubber insulating gloves with curved hand design give superior electrical protection and maximum comfort in high voltage work.

"Crystal" rubber insulating gloves have earned the reputation for superior performance, meeting and exceeding requirements of tropical Indian conditions.

Under rigid quality control standards "Crystal" combines the finest raw materials and technical knowledge to produce line-men's protective equipment that consistently surpasses ISS 4770/1 968/1 991/1 993 and IEC 60903 specifications.

"Crystal" gloves are soft and flexible for comfort, yet both abrasion and cut resistant for long wear.

"Crystal" exclusive finish helps always slip on hand and off easily and gives comfortable pleasant feel to the wearer.

"Crystal" gloves increase work place safety.

P.V.C. POLKA DOTS GLOVES - with cuff for better gripping for general handling purpose. Made from drill-canvas cloth.

Available in standard size - ONGC type and ordinary type.

Also available knitted gloves without dotted.

SAFETY BELT made as per IS 3521 & FULL BODY HARNESS CE approved. (Also available Leather & Cotton Safety Belts.)

PVC full size & Half size Gum Boots with anti-skid soles.

Also available full size Gum Boots in Steel Toe and without Steel Toe with cotton lining.

Made from specially compounded virgin P.V.C. material, best for chemical resistance, electrical resistance and abrasion resistance.

Safety Shoes - Acid & Alkali Proof. PVC Sole / Rubber Sole / PU Sole, Derby style & Jodhpuri Style.

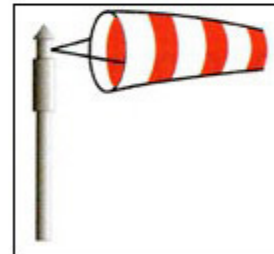

Available machine moulded or stuckon.

ELECTRICAL TESTED SAFETY SHOES tested upto 15 KV / 22 KV without nails & metal toe cap in derby type.

Wind Direction Indicator: Useful for Airports, Complexes, Refineries, Petrochemicals, Fertilizers & Allied Industries.

Eye Wash Bottle - portable light weight - can be kept at any workplace.

Help prevent against lose of eye sight from chemical burns, metal filings, foreign particles and dust by keeping polyethylene eye wash bottle on the spot.

EVERY THING in Stickers & Safety Sign Boards.

- Road and construction safety signs.
- Barrier tapes, link chains and traffic cones.
- Plastic stickers for export container, air cargo and hazardous signs.
- Safety badges and stickers for helmets.
- Stickers for advertising, packaging, labelling, bar codes and stickers for export labelling.
- All the above products are available in various sizes and colours.

3M - MASK / Respirator & Other PRODUCTS.

Available in various models on demand.

UVEX = Safety Goggles - Poly Carbonate UV- Protection in various models.

UVEX Ultrasonic - UVEX supravision lens coating. Non fogging interior with scratch resistant exterior.

Welding Goggles with flip-up fitter mechanism - Ideal for welding and general purpose.

Compressed Air Breathing Apparatus.
Duration of Working - 30 /45 Minutes.

Self contain breathing apparatus fitted with approved cylinder (director of explosive test certificate is provided).

It is also provided with demand valve and warning whistled, reducer, back plate, duration 45 minutes. Entire set is packed in good quality carry bag.

"BRIGHT STAR" - 3 Cell/ 2 Cell Safety Torch.

ASTM, UL, CSA & MSHA approved.

ALUMINISED FIREPROXIMITY SUIT
-with inside thermal barrier and Kevlar thread stitching.

Complete suit consist of hood with heat resistance mica visor and fiber glass fireman helmet.

Boot and single piece suit with or without breathing apparatus facility

RED -WING - RIGGERBOOT and SHOES
(U.S.A.)

Available in sizes 6 to 13.

"LALIZAS" - Inflatable Jackets.

Automatic and Manual.
